08.00-08.15	Leave from The Imperial Hotel and Convention Center to Sukhothai Province	
08.15-09.00	Visit Wat Pra Sri Rattanamaha That Wat Pra Sri Rattanamaha That is regarded the	
	most important temple in the province. A Royal temple founded in the 14 <sup>th</sup> century is famous for the Phra Buddha Chinnarat Buddha image, considered by many to be the most beautiful	
	Buddha image in Thailand. The Sukhothai style image measuring 375 centimeters tall was molded	
	around 1357. Wat Phra Si Rattana Mahathat also features a 36 meter tall Ayutthaya style stupa that enshrines Buddha relics and a large standing	
10.00.11.00	Buddha image in front of it.	
10.00-11.30	Visit Sukhothai Historical Park A UNESCO World Heritage City, Sukhothai houses a vast number of historical sites and temple ruins. As the first capital of Siam, the Sukhothai Kingdom (1238 – 1438) was the cradle of Thai civilization – the birthplace of Thai art, architecture and language. 'Sukhothai' means 'the dawn of happiness', and the kingdom did enjoy an extended period of peace and prosperity until it was annexed by the Ayutthaya Kingdom. Due to its location (about 427km north of Bangkok and sitting relatively in the middle of nowhere) Sukhothai sees a smaller number of visitors than its more popular counterpart Ayutthaya. Sukhothai's historical sites, however, are by no means less splendid. Most historically significant temple ruins are housed inside the Sukhothai Historical Park and nearby Si Satchanalai Historical Park. Apart from visiting the historical sites, Sukhothai itself is a quiet rural city where you can still relish the charms of Thailand's rustic	
	lifestyle.	
12.00-13.00	Lunch at Ban Chanchay, a Thai food restaurant in Sukhothai Province	
13.00-14.00	Leave for Lumtad Ancient Silver	
14.00-14.45	Visit Lumtad Ancient Silver Sukhothai's silver jewellery craft is equally as unique. Rather than molded into a pre-desired shape, these jewellery pieces are hand-woven into various designs from tiny strands of silver. The designs are usually modelled after the relief patterns found inside Si Satchanalai.	

	Visit Suntree Thai Weaving Center	
5.00-15.45	Suntree is hand-woven fabric of Thai Puan Tribe,	
	who moved from Chieng Kwang (Southern of	
	Loung Prabang, Laos) to Sukhothai, Thailand at	
	the time of King Rama III Rattanakosin Dynasty	
	(approx. 1830 A.D.) We made many difference	
	kinds and styles of fabrics for dailyuse and	
	special occasions. Tin choks are famous fabrics	
	that used a special technique to insert variety	THE RESERVE OF THE PARTY OF THE
	color threads to individual pattern. We made the	
	best quality fabrics by using natural material in	
	every step and still keep original and also create	
	new patterns too. Each piece of fabric is and	
	individual art works of the weaver by their heart	
	and soul.	
6.00-16.45	Visit Prasert Antique	
0.00-10.73	Ceramic art was produced in different parts of	
	present day	A STATE OF THE STA
	Thailand. Sukhothai or Sangkhalok (as named by	
	the Chinese) ceramics are the most important	
	subgroup, having been produced in a distinct area	
	and time period (around the timeframe of the	
	Sukhothai kingdom). However, it seems that	
	nowadays all ancient ceramics of that time period	
	are referred to as Sukhothai or Sangkhalok wares,	
	further distinction basically made by	
	archaeologists and professional collectors.	
	The kiln sites of the Sukhothai wares have been	
	explored and are scattered over two main areas;	
	i.e., the Sukhothai kilns outside the northern wall	
	of the ancient city of Sukhothai, and the Si	
	Satchanalai kilns. One particular kiln in Si	
	Satchanalai has been excavated and is exhibited	
	as an open air museum, a few km northwest of	
	the Si Satchanalai archaeologic site.	
18.00-20.00	Farewell Dinner	The Legendha Sukhothai,
	Attire: Smart casual	Sukhothai Province
20.00-21.00	Arrive at The Imperial Hotel and Convention	
	Center
